

## SCHOOL CHOICE FACT SHEET FOR SPECIAL EDUCATION

**NOTE TO PARENTS:** As part of our school choice program, we are providing you with Fact Sheets for your child's current school and for each school to which you may consider transferring your child. These fact sheets are intended to give you as much special education-related information as possible before choosing whether to transfer your child to another school within our district. We also recommend that you visit any school to which you might consider a transfer, so you can speak with its staff and ask any questions you may have. A discussion with the members of your child's current IEP team can help you identify any potential issues a transfer may involve as well.
